Understanding Autism

(A Simple Guide for Young Readers)

What is Autism?

Autism (Autism Spectrum) means that someone's brain works a little differently.

Examples of How Autistic People May Experience the World

Strong Interests

Autistic people often love learning lots about things they enjoy!

Sensory Sensitivity.

Lights, sounds, textures, or smells can sometimes feel stronger or overwhelming!

Different Communication Styles

Some autistic people talk a lot, some talk a little, and some communicate in other ways.

Routine Helps

Knowing what is everyone is different.

Amazing Strengths
